

Exciting Things Happening at Golden Pathways To Harmony

Golden Pathways To Harmony is about providing tools, solutions, knowledge, frequency based modalities and training. Below is what we offer:

The Matrix Blueprint

Often when people are looking for healing or direction in their lives they look at one or two areas of their life. The same is often true for the person looking to help other people, they only look at one, two or maybe three areas. If you use the matrix blueprint chart above you can address all the areas that need to be looked at to obtain a full picture of your life or the person you are looking to help. With this knowledge you can change the oscillating frequencies to achieve a holistic outcome.

Online Training

Face Profiling

We offer online training in Face Profiling so you can understand your heredity. Heredity is the passing on of physical and mental characteristics genetically from one generation to another. Your face carries all this information This course will give you the knowledge to accurately read face's to reveal the traits. This makes this an extremely important skill to have when addressing this part of a person's life.

Scleragraphics

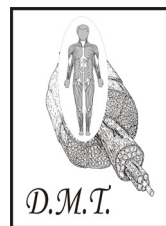

Opening up the window to the soul will reveal a wealth of information and the dominant stresses in a person's life. Scleragraphics teaches you how

This online course is thorough with 13 modules of training by the world master Dr Jack Tips. This course will teach you how to read the Sclera of the eye's and all the knowledge contained in the lines on the bottom of the feet. Did you know that the lines first appear on the bottom of the feet before they appear in the Sclera of the eyes and after this they appear in the Iris.

Deep Muscle Therapy

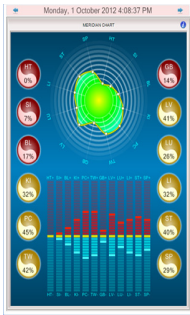

Sounds painful, Can be, not always, but Why? It is largely due to the congestion of the fibres within the muscle, tendons and ligaments. If there is no congestion there is no pain when they are worked on due to the flexibility that exists. Over time if the fibres are congested they become stuck in a holding pattern creating pain, if you attempt to push them or work the fibres beyond their current limits you feel pain and it strains the muscle. This plays havoc with the circulation of the body not to mention the emotions that get trapped within the fibres of the body. I devoted many years of my life to Deep Muscle Therapy to create a thorough modality to reach every nook and cranny of the body. This online course will give you all you need to achieve the release of the muscles, tendons and ligaments of the body.

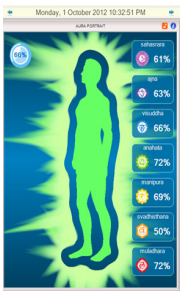

Practical Tools for Healing

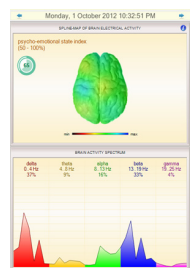

Energy Reading Software

Thousands of years ago a system was developed by the Chinese, Indian and Tibetan people to access the Human computer and operating system by placing three fingers on the wrist. It was known as Pulse diagnosis and takes many years of practice and time to learn and is still in use today. Through amazing advances in technology we can gain access to this information in five minutes with the use of Heart Rate Variability (HRV).

Heart Quest is a highly developed piece of software that converts and deciphers HRV information into a format that can be easily understood helping you to understand where the real energy issues are within human matrix. This software is a must for those who are endeavouring to look at the whole picture of a human being. The other advantage is that it is ideal for viewing before and after any modality you choose to do with a high accuracy and it is easy to use.

Lumalight

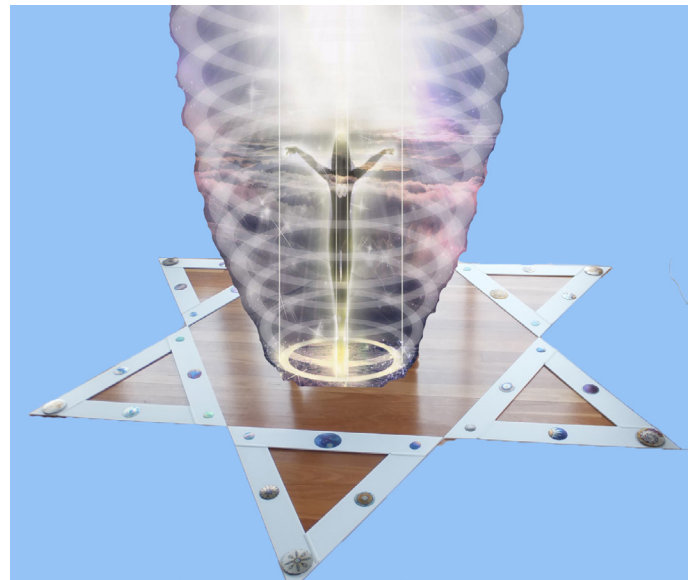

We are made of photons; therefore it makes very practical sense to use light and colour to work with our being. Lumalight would have to be by far one of the most advance systems on the planet that is within reach of the everyday person to use.

The results that I have seen personally working with this system of colour light therapy have blown me away. I can address all systems of the human and animal matrix with ease and speed. This is a perfect set of tools to use with whatever modality you use.

Teslas Stargate

The unique Tesla Stargate is for the more adventurous but is extremely useful in releasing the high stress levels that people have. I have found by placing a person in the Tesla Stargate for 10 minutes makes a huge difference with the effectiveness of other modalities that are used after the person being in the Tesla Stargate and it really improves results of the overall matrix of the person.

The Tesla Stargate is made up of 36 different Tesla plates specially configured to go on the six sided star. Once inside the Stargate depending on which of two configurations you choose you will be able to go into a deep relaxation or shift into higher dimensions. This Tesla Stargate comes complete with 36 Tesla Plates and the six sided Star Layout. I have tested 20 people for stress reduction and the opening of the crown chakra, the results were very good and are available on the website.

Teslas Harmonising Energy Plates

In today's world we are surrounded and bombarded with all types of energy. It is amazing that we withstand the onslaught of our cells from High tension power lines, Wireless transmissions, Microwaves, Phone towers, Electro Magnetic frequencies combined with the earth energies in different places. After much research and development there is an answer to our polluted EMF atmosphere.

Teslas' have designed a number of different technologies to counter the effects of each of these energies using its proprietary technology. 1000's of people today now use this technology and feel what it is like to live without the bombarded of these energies in their lives.

Many people who could no longer go to shopping centre's because of the high levels of Geopathic Stress and can now shop again without being affected and are very thankful. I can't stress enough of the importance of having this technology in your life and the many benefits it brings to your life as there is nothing else on the planet like it. The harmonising energy of this technology is constantly adjusting to the individual needs of day to day life and helps to work with all levels of the human matrix.

Young Living Essential Oils

Many of you may of heard about Young Living Essential Oils. I have been using them since 2000 and they did save my life. The quality of these oils made a huge difference.

Unfortunately not all essential oils are created equal. In fact many of the oils in the market are what are called "perfume quality" or "4th & 5th quality oils."

These are over-processed, chemical laden, highly adulterated and de-natured products that, in reality, are little more than cheap perfume made from various odorous plants. This includes some oils found in health food stores. You would not want to use these oils for healing.

Pure plant essential oils have been revered for centuries for their restorative properties to body, mind and spirit and is now re-emerging as a key solution to the challenges facing our modern lifestyles.

Young Living Essential Oils is dedicated to using organic essential oils produce with their seed to seal

policy, uniting the ancient wisdom with modern science and state-of-the-art technology to produce high end vibration oils and ground breaking new products infused with these beautiful oils. Again my high level of enthusiasm for these oils is due to the way they can be used to access all levels of the human matrix and bring about a positive change in people's lives.

Their Thieves range of products helps to iradicate the need of chemicals in the home and work place.

Tapping into the Knowledge Stream of Life

Who Are U Really

I believe that this is a question that will be asked by all at one time or another during their life on this planet. I have made it my life's work to find the answer to this all important question. To find the answer I had to be in a space to let go of all that I knew, only then did I find the answer. Today I no longer have to search for the answer but to find ways to share the answer to help other people on their journey of life. If you venture into this section of the website please do so with an open mind and you may find the answer you seek. I have no desires for you to join anything or change what you believe only to help you see it from another perspective that may serve you well.

Workshops to Advance You're Healing Skills

5 day Master Colour Light Harmonic's Course May 8th 9th 10th 13th 14th

Learn how to use crystal colour light as a catalyst for change and gateway into our physical and energetic world. Julianne Bien one of the world's leaders in Light Therapy & the founder and inventor of the Spectrahue Lumalights Colour Harmonics System is coming to Australia for the first time in May to hold a 5 Day Master Colour Light Harmonic's Certification Course. Light is the way your cells communicate, when you are in poor health or under stress, the quality and degree of communication is adversely affected and so is your light and consciousness.

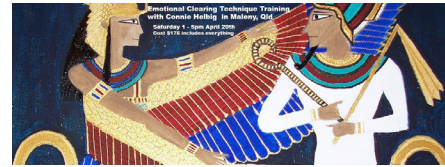

When light fades within your cells, it results in a blockage of light as well as nutrients and fluids. Your cells become colder and darker, but it doesn't have to stay that way.

This course will put you light years ahead in your ability to work with the human matrix and achieve outstanding results.

This is a one of course and will not be recorded. If you want to be trained by the master then you need to be there. Michael Thrower a veteran in the use of Young living Essential Oils and Light Therapy will also be there to teach the integration of Young Living Essential Oils and Colour Light Therapy together. The results that I have achieved combining these two modalities together have been outstanding and I encourage you to put this on your agenda as it will be an event not to be missed.

Emotional Clearing Technique Training with Connie Helbig

Saturday April 20th 1pm to 5pm

Connie has performed well over 2000 emotional clearings since originally learning this technique in Hawaii in 2004 from Gary Young, of Young Living, the creator of this Egyptian technique for "cleansing the spirit", and had incredible results.

When Gary Young was in the Isis Temple in Egypt he saw a technique written on the wall. This inspired him to create the very same Emotional Clearing Technique you will learn from Connie.

Using 14 Therapeutic Grade Essential Oils, the DNA changes, physically, emotionally, mentally and spiritually, as old emotions, blockages and patterns can gently release, raising your vibration, bringing you closer to your true soul self.

Cost \$175 includes training, Young Living vibrational essential oils, and snacks.

Not only do you get to learn how to give this powerful healing method, you will also receive an Emotional Clearing. This technique can be used on its own or with any other healing modality to allow for great shifts of consciousness.

Phone Connie for more info, too book (& pay) on 0425 805310 or email conniehelbig@bigpond.com
